arising from the sale of public lands, which

was reserved in the compact between the

United States and Illinois, to be expended, un-

roads leading to the State, I have the honor to

therewith, together with such suggestions as,

In 1818, Congress passed an act to enable the

people of Illinois Territory to form a constan-

tion and State government, and for the admis-

sion of such State into the Union. The sixth

section of that act offered four certain proposi-

tions to the convention of said territory, when

formed, for their free acceptance or rejection,

and which, if accepted by the convention.

should, as it expressly declares, "be obligato-

were accepted, and the conditions upon which

they were made strictly observed, by which

the State lost a large amount of revenue in re-

from and after the day of sale, and the patented

lands for three years after the date of the pat-

ents, respectively, where they were con-tinued to be held by the patentees or their

heirs, as an equivalent for this, and not

as a gratuity or donation. The third proposi-tion declares "that five per cent of the net

proceeds of the lands lying within such State,

and which shall be sold by Congress, from and

after the first day of January, one thousand

eight hundred and nineteen, after deducting all

expenses incident to the same, shall be reserved
